SCOPE EDUCATION SERVICES

COURSE DESCRIPTIONS:

K-1 Course Descriptions:

Adventure Sports & Scavenger Hunts:

Join your friends in an action packed sports training class. We will focus on individual and competitive fun sports. Relay races, scavenger hunts, obstacle courses, and field training. Kids will learn social-emotional skills of teamwork, perseverance, determination and following direction skills all while having fun and being physically active outdoors and indoors.

Disney Music & Art Experience:

Come along on a magic carpet ride as we show you a whole new world of the music and art from Walt Disney. You will learn famous songs, music and movement of Disney productions featuring Frozen, Aladdin, Lion King, Beauty and the Beast and more Disney productions. You will whistle while you work and sing along as we also complete cartooning and art projects related to Disney characters and scenes. Children will be immersed in a world of art, music and cartooning.

Magic Masters:

In this introductory magic class, students will learn the art of illusion. Students will learn how to vanish an object, transform items into a different item, make objects disappear and reappear and learn many card and money tricks to show off! Students will practice to be able to put on a small magic show at the end of the semester. Students will be provided demonstrations, instructions and opportunities to practice!

Primary Origami and Cartooning:

If your child loves art, origami and cartoons, this class is for them! Each week students will focus on a specific object such as animals, foods, cartoon characters and objects from nature to create both in origami and cartoon form. Students will design objects utilizing various origami techniques and learn cartooning and drawing skills to give these objects character. If your child loves art, this class will surely please them. They will come home each day with several projects completed!

Primary Coding and Technology

This introductory course will feature an outstanding curriculum focusing on problem based solving, logical thinking, creativity, resilience, persistence and boost your child's confidence! Students will code with Minecraft, Star Wars, and Frozen block-based tutorial programs

Primary STEAM

Do you love to create new designs or to solve challenging problems? Work with teams and let your curiosity and creativity soar, as we explore the world of SCIENCE, TECHNOLOGY, ENGINEERING, ART and MATH! Students will explore topics in STEAM and science to explore their natural world while creating exciting projects.

Team Sports Clinic:

This class will focus on teamwork and developing social and athletic skills in our primary aged students. Students will learn skills in soccer, basketball, kickball and other team related field and indoor sports. Students will develop their social skills by following directions and working as a team.

Summer Arts & Crafts:

If you enjoy arts and crafts and love summer, then this is the course for you! Using summer fun themes like beaches, shells, fish, boats and lighthouses we will create a variety of sun-sational projects. In this course, we will use a variety of mediums to create beautiful works of art! We will use materials such as watercolors, clay, paint and more. Let your imagination soar as you explore summer favorites.

SCOPE EDUCATION SERVICES

COURSE DESCRIPTIONS:

Grades 2-3 Course Descriptions:

Adventure Sports:

Join your friends in an action packed sports training class. We will focus on individual and competitive fun sports. Relay races, scavenger hunts, obstacle courses, and field training. Kids will learn social-emotional skills of teamwork, perseverance, determination and following direction skills all while having fun and being physically active outdoors and indoors.

Chess Academy:

Are you ready to take your chess skills to the next level? Or are you a beginner ready to learn the game of chess for the first time? Either way, this class is for you! Each chess academy session is structured by starting off with a 20-30 minute lesson on chess pieces, strategy, skills, gambits and plays, followed by 45 minutes of tournament style games. Students will compete in an in-house competition and no elimination tournament. All students will receive a trophy or medal at the end of the program. Students will increase their knowledge of the game and have a great time with their friends!

Coding and Robotics

This introductory course will feature an outstanding curriculum focusing on problem based solving, logical thinking, creativity, resilience, persistence and boost your child's confidence! Students will code with Minecraft, Star Wars, and Frozen block-based tutorial programs.

Edible Science:

Have you ever wondered how things work? Discover, explore, and create our wonderful world through Edible Science! Ever eat slime? Ever create a worm farm out of pudding and gummy worms? Construct the layers of the Earth and claim you have eaten the world! Come join us and learn about Science and then eat what you learned!

Hip Hop Dance for All:

Give hip hop dance a try in this flexible beginner Hip Hop class where students will learn the basic fundamentals of hip hop through technical teachings, creative movement and choreography to hip hop music at their own pace!

Japanese Anime, Art and Animation

Anime is one of the most popular art and animation forms in the world and if you love art, sketching, drawing and design this outstanding course will teach your art theory, how to sketch and how to draw animation and characters. Art and Animation is a course in which students express their visual creativity through drawing, storytelling, and other visual mediums. Throughout the course students will explore the international history and evolution of Japanese animation. Students will demonstrate creative self-expression as they learn basic Japanese anime drawing skills and techniques for original character design.

Jewelry Design:

In this jewelry making class, students learn with friends the art of jewelry and bracelet design. Kids can use lanyard, rainbow loom, and string bracelets to be creative and design fashionable jewelry to take home and share with friends and families.

Lego Engineering

Students will be using LEGOs to complete challenges and build stories! They will have time to use their imagination to do some free building as well.

Sculpting & Clay Creations

Join an amazing art instructor, as she teaches students different techniques and styles with clay sculpting. Students will have the opportunity to create projects while learning many different artistic styles. Students will create their own masterpieces from a skilled and certified art-instructor with a focus on mindfulness and artistic expression.

Speed Cubing:

Have you ever looked at a rubix cube and wondered how fast you could solve it? Have you always wanted to learn how to solve a rubix cube? Do you already know how to solve it but want to compete and improve your skills? This class is for you. We will learn beginner and advanced cubing techniques, and solve different styles of cubes. You will compete with your friends on time competition skills. Students of this class will improve their speed, accuracy.

Rocketry and Retro-Science

Science is exploratory and exciting! It's about the "Aha!" moments in life, like when you figure out how something works or when you're amazed by the result of an awesome experiment. You will have the opportunity to learn about science through our interactive hands-on science activities that will be sure to spark your imagination! Students will learn about Newton's laws of motion and build rockets to launch!

Taste the Rainbow Cooking:

Come join us and explore the possibilities of tasting the rainbow! Discover exciting ways to work with others to create different recipes. These colorful foods will help you grow strong and healthy, and you will get the chance to create a cookbook full of these wonderful ingredients. We will discuss the benefits of these foods, and we will even be able to eat them! We will focus on cool dishes, desserts and chocolate making!

Team Sports Clinic:

This class will focus on teamwork and developing social and athletic skills in our primary aged students. Students will learn skills in soccer, basketball, kickball and other team related field and indoor sports. Students will develop their social skills by following directions and working as a team.

Grades 4-5 Course Descriptions:
