Last year GC SEPTA awarded close to \$20,000 in grants district-wide. Now, in our second year, we are thrilled to see our vision realized with so many of our dedicated and talented teachers participating and some even building on their winning grants from last year!

So many exciting new programs, instructional and technology equipment to enhance learning, and informative guest speakers for the benefit of ALL our students.

Our grant program would not be possible without generous donations from Cuz Kathleen Cares, The Men's Association and the Paul Eckna Foundation. We are truly thankful for all of their support.

For more details about the GC SEPTA Grant process and to keep up with these exciting happenings within our schools, please visit www.gcsepta.org
